### **The Power of F.U.N. Model**

- **F is for FORCE**

- a. Fun is a FORCE. The first step to seeing and leveraging the impacts of fun is to recognize its power. Enlightened leaders tell their teams to have fun, understanding that message carries value and weight. Believers know fun is ok and are willing to try it, test it, put it into action. Just have fun!

- **U is for UNIVERSAL**

- a. Fun is UNIVERSAL. Yes, it works anywhere; funerals, rocket-scientist conventions, church services, boring workplaces, incredibly engaging workplaces, the Supreme Court, and everywhere in between. There is a time and place for fun. And, it's any time and any place.

- **N is for NO**

- a. "NO!" - The battle cry of the fun killer. If fun is prevalent, and can work anywhere, it's time to consider how the fun fits, because it can. The funkiller will help with all of the "no you can't do that" to help shape what works and doesn't work.
